# What is University Destination Survey?

The AKU-EB Annual University Destination Survey (UDS) is to track the university admissions of all AKU-EB graduates across Pakistan. It endorses the fact that students graduating the AKU-EB system are well prepared for higher education and the system enables them to have a level playing field.

**96%** Annual AKU-EB UDS response shows:

**91%**  
HSSC graduates secure admissions into various national and international universities

**53%** **47%**

**97%** Graduates reach various universities in Pakistan

**3%** Graduates reach more than 100 international universities

**52%** Graduates reach Top-15 HEC ranked universities in Pakistan

# Why UDS?

*“I developed curiosity for learning about technology, energy and environment when joining **AKU-EB** - a system of education which taught me to think free, focus on the application of knowledge and gave me directions to explore my passion. The Board served as a strong foundation to continue pursuing my passion for learning about technology and nature at the institution of my choice.”*

**HISSAM KARIM**

*“While parents kept my passion flamed, teachers under the **AKU-EB** system have challenged me to explore more than one way of learning, pushing me to become an independent thinker and a decision maker.”*

*“I am delighted to note that an increasing number of students clearing HSSC from the **AKU-EB** are doing well in the IBA admission test. Students from **AKU-EB** go beyond the conventional textbook, which is essential for the practical application of knowledge.”*
